EXECUTIVE SUMMARY

Since 2002, IPPC has been recognized as the “thought leader” in providing technology solutions for the specific purpose of managing high-risk computer and device users. Our SecureLearn™ managed service offers correctional facilities, halfway houses and detention centers a secured and curated Internet platform. SecureLearn provides Offender Populations with highly restricted and monitored access to affordable, quality online educational materials for workforce certifications and life skills development. Recognizing that family-sustaining job attainment is the number one factor in reducing recidivism, SecureLearn supports that goal without compromising the safety or security of the facility or the student.
